Shahid Ali

Full Stack Developer

Multan, Pakistan, 0345-1394611, shahidali.dev1@gmail.com, linkedin.com/in/shahidali64, github.com/Shahidali-1

PROFESSIONAL SUMMARY

Computer Science graduate from the University of Southern Punjab, Multan, currently working as a .NET Developer Intern and building web applications with C#, ASP.NET Core MVC (.NET 6), Entity Framework Core, and SQL Server. Built HireHub, a 3-role job marketplace with an ATS resume checker, and a Bus Ticket Booking System during the internship. For my final year project, I built a full stack Online Examination System with AI-powered proctoring using Python, Flask, OpenCV, DeepFace, and YOLO. Strong front-end and problem-solving skills, good working English, and a fast learner.

TECHNICAL SKILLS

- .NET Stack: C#, ASP.NET Core MVC, .NET 6, Entity Framework Core, MVC Architecture, Cookie Authentication, Hangfire, MailKit
- Databases: SQL Server, SQL, MySQL
- Front-End: HTML, CSS, JavaScript, TypeScript, Bootstrap 5, Chart.js
- Other Back-End: Python, Flask, Django
- AI and Automation: OpenCV, YOLO, DeepFace, TensorFlow, n8n, LLM API Integration
- Tools: Git, GitHub, Visual Studio, REST API, CRUD Operations, Debugging

PROJECTS

HireHub - Job Marketplace and ATS Resume Checker *Personal Project*

ASP.NET Core 6 MVC, Entity Framework Core, SQL Server, Hangfire, MailKit, PdfPig, Bootstrap 5, JavaScript

- Built a full-stack 3-role marketplace (Job Seeker, Recruiter, Admin) with a freemium model: daily usage limits, subscription plans, and manual payment verification.
- Added recruiter tools (Kanban applicant board, interview scheduling, CSV export) and an admin panel for user verification, job moderation, payment approval, and revenue charts.
- Built a public ATS Resume Checker that parses PDF/DOCX files and scores them on contact info, length, action verbs, and sections; added Hangfire background jobs, MailKit emails, and BCrypt password hashing.

Bus Ticket Booking System *.NET Internship Project*

ASP.NET Core MVC 6, Entity Framework Core, SQL Server, Bootstrap 5, Cookie Authentication

- Built a bus ticket booking system with Admin and Passenger roles, cookie authentication, and email OTP password reset.
- Implemented bus, route, schedule, and seat management with multi-seat booking (up to 5 seats), manual payment approval, QR code tickets, and an admin dashboard with reports.

Source code: github.com/Shahidali-1/BusTicketBookingSystem

Online Examination System with AI Proctoring *Final Year Project*

Python, Flask, MySQL, OpenCV, dlib, YOLO, DeepFace, TensorFlow

- Developed a full stack exam platform with student, teacher, and admin dashboards, exam creation, automated grading, and results.
- Built an AI proctoring module with face recognition (dlib, DeepFace), person counting (OpenCV Haar Cascades), and object detection (YOLO) to flag violations.

Other Personal Projects

- Inventory Management System: full stack system for tracking stock levels, managing product records, and generating reports.
- AI-Powered Contact Form Automation (n8n): form submission triggers an LLM API reply sent via Gmail API and logged to Google Sheets API.

WORK EXPERIENCE

.NET Developer Intern *Sep 2026 - Present*

University of Southern Punjab (USP), Multan

- Developing web applications using C#, ASP.NET Core MVC, and .NET 6, and building and maintaining features using MVC architecture.
- Working with SQL Server for database design, queries, and CRUD operations; debugging issues and improving existing functionality.

Full Stack Developer Intern *CodeAlpha (Remote)*

- Completed a virtual Full Stack Development internship, working across front-end and back-end application development.

EDUCATION

BSCS-2Y (BS Computer Science - 2 Year Program) *2023 - 2025*

University of Southern Punjab, Multan, CGPA: 3.1

ADP-CS (Associate Degree in Computer Science) *2021 - 2023*

University of Southern Punjab, Multan, CGPA: 3.0

ICS (Intermediate in Computer Science) *2019 - 2021*

City College, Chowk Sarwar Shaheed
